

Measure	Indicator	Responsible agencies	Implementation mechanism
Timing of the provision of strategic greenspace and the specific form and function of these areas in advance of or in conjunction with the majority of relevant new developments being occupied.	Proportion of the Strategic Greenspace project complete in comparison to progress with development.	Huntingdonshire District Council and relevant partners (e.g. Natural England)	Details in an Open Spaces SPD or similar document, tied to delivery through implementation committee or appointed officer, supported by associated with s106 obligations (or similar) obtained through the development control process
Standards for provision of new semi-natural greenspace for new developments that is in line with the Cambridgeshire Green Infrastructure Strategy and ensures that Natural England ANGST criteria are met in order to reduce the pressure on European sites (specifically Porthome SAC, Rutland Water SPA and Orton Pit SAC) Any greenspace created to fulfill these standards will need to serve a similar recreational function to the European sites from which they are intended to draw recreational users (i.e. primarily dog walking and the appreciation of nature). The policy should also include a note requiring any new open space to be provided in parallel with or in advance of the new development being occupied.	Degree to which these criteria and standards are being adhered to in development control decisions	Huntingdonshire District Council, Private Sector	Details in Planning Proposals DPD, Open Spaces DPD or similar, tied to decisions made through the development control process
Commitment to liaise with Anglian Water and other stakeholders to assist in the long-term delivery of the Rutland Water Management Plan and in particular, any changes to the management of the Reserve that are necessary as a result of increased visitor numbers associated with the increased population in Huntingdonshire and surrounding authorities.	Degree of engagement with Anglian Water and other stakeholders in management of Rutland Water	Huntingdonshire District Council, Anglian Water, Leicestershire & Rutland Wildlife Trust, Natural England other local authorities	A policy in the Core Strategy or a commitment to elaborate further on the issue in an Open Spaces SPD or similar
Phasing of development delivery in order to ensure that it only takes place once any new water treatment infrastructure or appropriate retro-fitted technology necessary to service the development while avoiding	Proportion of the new strategic infrastructure complete in comparison to progress with development. This indicator will	Huntingdonshire District Council, Anglian Water, Environment Agency, Natural England	Planning Proposals DPD, Water Cycle Strategy

an adverse effect on European sites is in place.	only be possible after a Water Cycle Strategy or similar has agreed the necessary components and their timing.		
Direct initial housing allocations towards those STW catchments that still have physical/environmental capacity for the delivery of housing without adverse effects on European sites.	None needed since this measure will inform Development Proposals DPD and will then be complete	Huntingdonshire District Council, Anglian Water, Environment Agency, Natural England	Development Proposals DPD
Requirement for developers to exceed Code for Sustainable Homes Levels 4 after 2016 by requiring all developments to achieve at least a 6 star rating.	Proportion of new developments granted planning permission after 2016 without demonstrating their achievement of CSH level 6	Huntingdonshire District Council	Core Strategy, development control decisions
Phasing of development delivery in order to ensure that it only takes place once any new water supply infrastructure necessary to service the development while avoiding an adverse effect on European sites is in place.	Proportion of the new strategic infrastructure complete in comparison to progress with development. This indicator will only be possible after a Water Cycle Strategy or similar has agreed the necessary components and their timing.	Huntingdonshire District Council, Anglian Water, Environment Agency, Natural England	Planning Proposals DPD, Water Cycle Strategy
