Before commencing a fitness programme, check with your doctor first if you are unfit, sedentary, overweight, obese, pregnant, or have any medical problem, diagnosed or otherwise, that may affect your ability to exercise such as: heart trouble, high blood pressure, diabetes, chest pain, especially when exerting yourself, feeling faint or dizzy spells, or any other medical condition which limits your ability to exercise.

We hope you obtain considerable enjoyment from these walks. At the time of preparation of the maps all routes follow rights of way or permitted paths, but diversion orders can be made and permissions withdrawn. Whilst every care has been taken to ensure the accuracy of the route description, HDC cannot accept responsibility for errors or omissions, or for changes in the details given. The countryside is not fixed. Hedges, footpaths and fences can be moved and redirected. Paths described may be pleasant for walking in fine weather but can become slippery, boggy and dangerous in wet and wintry weather. Wet weather can also cause some streams and rivers to become impassable. On days where visibility is impaired by cloud, mist, rain or fog, some landmarks used as direction aids in the route material may not be visible. Please note that all walks are undertaken at your own risk and HDC accept no responsibility or liability for any loss or injury.
