CCTV INCIDENT HIGHLIGHTS

- Our CCTV Operators regularly achieve fantastic results, we would like to share several highlights captured over the last quarter.
- The following incident write ups include a mx of crime and non-crime across both councils.
- We have experienced some excellent results; from pro-active arrests to tracking down some of our most vulnerable residents; saving lives and preventing crime from the control room.

Incident 24044 – 10th April 2024 - PM

VULNERABLE MALE SPOTTED IN CITY CENTRE

Together with a city centre doorman, operators observed an elderly male who looked to be in very poor health. This information, along with the male's description and location, was relayed to police via the airwaves.

Officers were deployed and soon arrived on scene to check if the male was ok, they took him to hospital where he was found to be seriously ill and in need of medical care.

Compliments were received from police control for spotting him, they do not believe he would have survived much longer. This was a great outcome for the team and collaborative work carried out between CCTV and CAMBAC users in the city.

PRO-ACTIVE ARREST – DRINK DRIVING – HUNTINGDON

Incident 24236 – 19th April 2024 – RS, MO

COUPLE ARRESTED FOR DRINK DRIVING AND POSSESSION OF DRUGS

Operators observed a male and female enter a car; the male appeared to be drinking alcohol. The vehicle details and location were relayed to police over the airwaves, cameras were deployed to follow the car as it drove away.

The car was driven in the wrong direction along the Highstreet, operators also believe they observed the female passenger snorting drugs from the armrest of the vehicle. Observations were maintained as the couple travelled around the town in the vehicle, police were deployed.

The couple were stopped by police, asked to carry out breath-tests and arrested for being over the limit. After being searched they were also found to be in possession of drugs and driving without a licence or insurance. The vehicle was seized, and the couple taken into custody.

PRO-ACTIVE INCIDENT – MISSING PERSON – CAMBRIDGE

Incident 25027 – 1st June 2024 – PM, GB

VULNERABLE MISSING PERSON FOUND

CCTV staff received details of a missing person, a vulnerable young female. Observations were made throughout the day until eventually they spotted a female matching her description in a city centre park area. Police were informed and cameras were deployed to track her location.

Police eventually arrived on scene and confirmed that this was the missing female they were looking for, she was taken home.

RE-ACTIVE INCIDENT – MISSING CHILD – CAMBRIDGE

Incident 26090 – 2nd August 2024 – MH, LM

MISSING CHILD FOUND

Operators received a call via the police airwaves, reporting a missing child in the city centre. The young female had been separated from her mother, her description was given, and cameras were quickly deployed.

After a short area search, operators located the child on the market square, her location was given to police, and they swiftly arrived on scene. The child and mother were soon reunited – a great result!

RE-ACTIVE INCIDENT – VIOLENCE – HUNTINGDON

Incident 26135 – 4th August 2024 – MH

MALE ARRESTED FOR DOMESTIC ABUSE

The operator on duty overheard police mention a domestic incident in a known location, as we have cameras in the area they were deployed, and the police were made aware that we could assist if necessary. Police gave the operator a description of the male who had run away from the incident and asked for an area search to try and locate him.

Cameras were deployed and the suspect was spotted almost straight away, even though he had changed his clothing to avoid being located. This was relayed to police and his location was tracked until the police arrived, he was arrested for domestic abuse.

A great reactive incident result!

RE-ACTIVE INCIDENT – BIKE THEFT – CAMBRIDGE

Incident 26556 – 27th August 2024 – LM, EFF

BIKE THIEF ARRESESTED

Operators spotted 3 males behaving suspiciously and looking very interested in a selection of bikes locked up in the city centre. 2 were riding bikes already but the third was on foot, they started checking all the bikes, looking at locks and moving along the length of the bike racks.

They soon moved along to another rack of bikes where they were then seen using a bike saddle to try and break a lock on a secured bike, police were made aware of the situation and dispatched officers. Observations were maintained.

The 3 males soon broke the bike lock and removed the bike from the rack, they were then followed by the cameras until police arrived on scene. As soon as the suspects spotted the police they cycled away, the operators followed them around the city centre until they entered the park. As it was nighttime operators couldn't see them in the dark, with little lighting nearby. However, when a group were seen illuminated by phone screens police were informed and were soon on scene. A short foot chase ended with 1 of the males being arrested and the stolen bike being recovered.

Incident 27558 – 25th October 2024 – PM, LT

4 X ARRESTED FOR DRUGS AND OFFENSIVE WEAPONS

Operators spotted a male acting suspiciously at the rear of a city centre premises, he was clearly seen holding a knife. He was soon joined by 2 other males also carrying large, machete type knives. Police were immediately informed over the airwaves and units were deployed.

One of the males left the scene in a vehicle, the licence plate and direction of travel were relayed to police, the car was soon stopped by officers and the male arrested for possession of a bladed article and having possession of class A drugs.

The other males left the original location on foot, operators used cameras to track their movements. Eventually they were all located and arrested. In total, 4 males were arrested for possession of offensive weapons and class A drugs.

Later, a police inspector called to thank CCTV staff for their help with this incident. A great result and dangerous weapons removed from the streets.

Police were informed of the situation and observations continued. He was then seen entering another shop, shortly after he emerged from the shop carrying several large joints of meat. Over the next half an hour he was seen going back and forth between 2 sets of bushes, moving stolen goods and stashing more.

A shop thief who stole a coffee machine and four handbags has been sentenced.

On 4 March, Shaun Burrows was captured on CCTV stealing the £399.99 Nespresso machine from John Lewis in Cambridge.

He took it from the shelf, walked out of the shop and put it on his handlebars before riding off without paying.

A few months later on 25 October he was witnessed by a member of staff and CCTV at TK Maxx in Market Street to steal four ladies bags worth almost £200.

The 47-year-old activated the alarm and was stopped from cycling off by a member of staff. Police officers on patrol nearby then arrested him.

At Cambridge Magistrates' Court on Thursday (28 November), Burrows, of Victoria Road, was sentenced to eight months in prison, suspended for 12 months, after pleading guilty to two counts of shoplifting. He must also carry out 150 hours unpaid work and pay John Lewis £379.99 in compensation.
